Sponsor Off-line Form Maintenance – Quick Reference Guide

LINQ

Off-line Forms Overview

Off-line forms are those that require the user to download the form, complete it, and then submit it to the state either by re-uploading the finished form to CNPWeb or by sending it via mail or email. Uploaded forms will automatically populate a date sent and date received once successfully uploaded. Sponsors must enter a date sent for forms sent via mail or email. A state user will enter the date received into the Sponsor Summary checklist for non-uploaded forms and a date complete for all off-line forms at the time of application packet approval.

Downloading an Off-line Form

1) Log in and select a program year. If you are an administrator to more than one sponsor, the Select Sponsor screen will display. Select the desired sponsor to continue.

2) The Sponsor Summary screen displays. Select the **Checklist** tab.

3) Locate the Off-Line Forms section. Required forms are indicated with a red checkmark. Documents with download files will show a software icon in the Downloads column. There are three types of software icons:

Icon	Download File Type

	Microsoft Excel

4) Select the **Software** icon of the desired form to download the file to your computer.
