| Data Concept Group<br>Dr. Andrews Bowman | Dr. Andrews reported the Data Concept Group work is wrapping up. MU and DHSS are working on a Memorandum of Understanding (MOU) to allow MU to analyze EMS data. Steve Bollin reported DHSS legal department is reviewing the MOU.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |  |
| SAC Members                              | Discussion regarding adding new SAC members and replacing those who move, retire, etc. has been taking place for several. Governors have been reticent to appoint anyone to many of the Councils including ours on EMS. Dr. Andrews had proposed a plan that would first have new appointments added and then over time would allow for current members to be replaced. Although there are many applicants, there have been no appointments to this Council in the last ten years. Some SAC members will be retiring in the next year or so. Discussion has taken place about changing the law so DHSS could do the appointments.  Steve Bollin presented a power point that described his vision of having DHSS appoint SAC members. There was no further discussion at the meeting and no motions made to explore changing the process. Late entry: after meeting conversations included some SAC members not wanting to change the process. Value is seen in having the appointments by the Governor. While the current leadership at DHSS is engaged and knowledgeable, that has not always been the case—and may not be again when personnel changes. It has been suggested that applicants may need more help in overcoming obstacles in the current process. Dr. Andrews recognizes the need for unity as options are explored. She will continue to gather information and will provide updates and opportunities for input. |  |

| Northwest Eric Reeter, Chair  Central John Clemens, Chair | Eric Reeter unable to attend. Dr. Andrews reported discussion included legislative and other items reported on today and additionally: MHA has a Mobile SIM Bus that has been made available to EMS agencies north of I-70. Many hospitals have participated in the SIM Bus training with the local EMS agency. Hospitals can also be the primary requestor. Discussion included Mosaic having problems getting non-emergency patients transferred out of the hospital which results in a patient flow back up. People are being held either in in-patient beds or in the emergency department. The problem is not unique to the NW Region. EMS struggles with staff and reimbursement for non-emergency transfers. The TCD Advisory Committee members had not been appointed yet on the day of the meeting.  ereeter@chillcothecity.org NW meets 3rd Wednesdays  No report icclemens@mcadems.com                                                                                                                                                                                                                 |  |

| Dr. David Gustafson, Chair                                | from attendance sheets. Tina York has taken over secretarial duties and assisting Dr. Gustafson.  Dr. Gus then related psych patients transfers that want the ambulance to stop withing a few blocks of the starting point and demand to get our of the ambulance. Medical Directors are worried about the liability of the issue.  Discussion included that EMS is not paid to take psych patients to a Crisis Center. Many who present to ED with psych problems but don't need hospitalization. Hospitals cannot discharge some psych patients to Crisis centers.  There are also not enough crisis centers to handle the need. There is a need to develop EMS protocols to allow EMS to take patients to Crisis Centers and to get paid for it. It is hoped this will improve with he expansion of Community Paramedics. Lori Freeman said she and others are in Washington DC this week working on Treatment in Place. Sarah Willson said current law may not provide protections needed. Scenes may be different than hospital transfers.  Paladin11ms@gmail.com Reg A usually meets 1st Mondays odd months |  |
